Spring in Christchurch

One of the wonderful things about Christchurch is that it has four very distinct seasons. If students are lucky enough to be able to stay in Christchurch for a year they will get to experience the changes between the seasons and see the different faces of Christchurch.

The 1st September also signifies the start of Spring. This year spring has arrived about 3 weeks earlier than usual.

Around the city a lot of cherry trees are blossoming and a sure sign of spring arriving is the need to start mowing the lawns again! There are also daffodils in bloom and lambs frolicking in the fields. We have, however, also had the nor'westers start – the hot dry winds that blow across the Canterbury Plains. Spring and Summer time – a great time to be in Christchurch!

Recent activity

You know spring is here and summer just around the corner when the BBQs start coming out. Last Friday was a glorious afternoon and perfect for the free Excel BBQ.

On the rooftop here at Excel is the perfect place for students and staff to spend the afternoon socializing and taking in some refreshments.

Student testimonies

"I could really enjoy learning English at Excel. All the teachers and staff are very kind and friendly. I could make many friends so I was very happy to come here. I will continue learning English."

Asuka KOYA JAPAN

"Really Excel is one of the best schools that improves the student's level of English. The teachers were lovely and friendly and they treated me like family. I hope to come to this school again."
