

Happy Place

Learning, Fun and Happiness. Can they go together? Of course!

Learning English needs a lot of work. In class you have concentrate, to try everything. Learning is about getting things wrong to make things right. Mistakes don't matter and everyone in the class should not be afraid to speak up. This is how we learn.

Good students also do extra study at home. They work with worksheets and assignments, reading and writing. If they are in a homestay they also like to test their speaking and listening. They use English to talk together.

A good rule for learning English is;

**The more you put in:
the more you get out!**

But at Excel it's not all serious.

We also have lots of fun, laughter and joking. Learning and happiness go together. We prepare food and eat together. We play music, watch movies, play table tennis and sit on the roof garden in the sun. We are cheeky to each other in a good spirit.

This way the College is a happy, friendly place. Different nationalities, different religions, different food and different personalities can mix together. Fun and learning keeps us together.

**You
Have
to Be
Here!**

TESOL

Becci Blackie decided she wanted to gain a qualification in teaching English as a second language. She was looking for a course flexible enough to work in with her university studies. It needed to be intensive and not take too long.

Becci and teacher-trainer Adrian.

Excel has a special course for those who wish to teach English to speakers of other languages (TESOL). Because Excel has very experienced and well-qualified teachers we can pass on modern and effective skills to those who wish to teach.

The course has 20 units arranged in 5 parts:

- Tuition and assignments
- Online with your ITTT tutor
- Individual development
- Classroom observations
- Practical teaching (assessed).

The Excel English College TESOL is different. Excel works with International TESOL Teacher Training (www.tesolcourse.com) to provide an online course with lots of Excel teacher support. ITTT is the world's leading TESOL qualification provider and gives an internationally recognised qualification.

Becci can study at her own speed and achieve an internationally recognised qualification. The cost is lower than many other courses. She can join in teacher observations and teaching practice within the College.

TESOL at Excel can be full-time, part-time or mixed with General English lessons. Students' English level should be Intermediate or above.

Students Say...

“

I come New Zealand first time my English is "A.B.C.D level! But I met Excel, good teacher and good friends. Everyone very kind. My school life is very happy and enjoy! Thank you David, all teachers and thank you my friends. I miss you so much. But I'll be back I hope!"

Tomoe from Japan

“

I have been studying IELTS course with my teacher Adrian at Excel English College and I was glad. It was a good opportunity for me to be here. Also my teacher always encouraged and taught me lots of techniques on the IELTS course. He dealt with all international students heartily. Actually, I have learnt with him a lot of vocabulary which is in a high level. Thank you all – teachers, principal and Lynne the administrator

Sami from Saudi Arabia
